DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the apparatus claimed by Applicant. In particular, the cited prior art fails to teach a plate with an inner ridge and outer boundary, wherein the outer boundary has an absolute height, relative to the surface of the plate, in any configuration, that is lower than the height of the inner ridge. The best prior art of record, US 4,750,901 to Molteno, illustrates an implant with an inner ridge and an outer ridge, but the outer ridge is taller than the inner ridge relative to the surface of the plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
